

BEE STINGS

For life-threatening situations:

- If the person is having difficulty breathing, call Campus Sheriff (ex: 3611 using campus phone)
- Follow "Emergency Instruction" that is listed on

IN CASE OF EMERGENCY INVOLVE LIFE THREATING

For non-life-threatening situations:

- Remove stinger by flicking it upward with thumbnail. Avoid squeezing or pinching stinger, which will inject more venom into wound
- Apply a cold compress, if available
- Refer to Student Health Services for further evaluation
