ACADEMY GOLD GRADUATION THIS PAST SATURDAY

The college worked hard to bring a new "Production Track" paid summer internship program for our DMA and other students with the Academy of Motion Picture, Arts and Sciences (AMPAS). They are in the second year of their Academy Gold Initiative focused on Talent Development and Inclusion. Of the first fifteen students in this program, four were from Trade Tech, a testament to what they saw in you. On Saturday, these four students graduated after taking an 8-week Master Class, industry panels Wednesday

evenings and Sundays, visits to all the major studios, a week production on a sound stage and internships. Amanda Bonilla, from our Architecture program, interned on Quentin Tarantino's new film shooting in Hollywood, providing CAD drawings of the primary building where they are shooting, to great acclaim from their Design Director. The three remaining students arose from Mr. Guerrieri's Digital Media class. Tabia Johnson is working on this same movie as a production assistant. Thien Nguyen is working at L.A. Film Studios getting close to the editing process, and Terrence Mack seemed to be one of the more popular grads when he walked the stage. They all reported an amazing experience and will participate in a panel of their own at LATTC in DMA to help recruit for next year.

Remember, to make sure you get enrolled for the Fall semester before classes fill up. Have a great week and get ready.
