ANNUAL SECURITY REPORT

2013

A Message from the College President...

Campus and personal safety are top priorities at Los Angeles Trade-Technical College. We are deeply committed to providing a learning environment that is secure and appropriate for higher education. If you, as a student, have any concerns about your safety or the safety of classmates or staff, we encourage you to bring such concerns to my office or to the campus Sheriff's department.

It is important that we are aware of potentially dangerous situations, so that we can address them promptly and without incident. We have a great team on campus. Our Sheriff's personnel are well-versed in campus policies and the law. They support a healthy campus culture and provide us with important information that keeps us safe in any number of situations. Do not hesitate to call on them if you need any assistance or see something of concern. It is their job to investigate it. You may always contact our campus Sheriff's office directly at 213 763-3600.

We hope that you find our campus to be a safe haven, so that you can get the most out of your educational journey.

CRIME STATISTICS

The following crime statistics for LATTTC have been compiled by the Los Angeles County Sheriff's Department, in conjunction with local law enforcement agencies surrounding the campus. Campus crime, arrest and referral statistics include those reported to the Los Angeles County Sheriff's Department, campus security authorities, and local law enforcement agencies.

CAMPUS LAW ENFORCEMENT

Authority of the Los Angeles County Sheriff's Department

The LACCD contracts with the Los Angeles County Sheriff's Department to provide security services at LATTC. The Sheriff's Department has authority to apprehend and arrest individuals involved in illegal activity on campus and areas immediately adjacent to the campus. Sheriff's Department personnel work as appropriate with local, state and federal law enforcement agencies, and have access to national crime databases.

The Sheriff's Department maintains a daily crime log of criminal incidents and alleged criminal incidents which are reported to the Sheriff's Department.

EMERGENCY RESPONSE AND EVACUATION PROCEDURES

LATTC will immediately notify the campus community upon confirmation of a significant emergency or dangerous situation involving an immediate threat to the health and safety of students and employees occurring on the campus.

To report an emergency, please contact the Sheriff's Department at (213) 763-3600 or use one of the blue emergency phones throughout the Campus.

Notification Procedures

In the event of a campus emergency, where it is necessary to notify students and staff of impending danger or critical information, Los Angeles Trade-Technical College has developed a protocol to engage as many students and staff as possible, in the shortest amount of time. It is important that all current technology and communication modes be used to widely distribute the information as quickly as possible. Coordination with the President's Office, the campus Sheriff's Office, district personnel, and Public Relations needs to be immediate and ongoing. Here is our roll-out communication checklist for critical information—

Email blast. An LATTC-ALL message is sent out to all faculty and staff.

Screen messages. Both the TE and ST buildings have programmed video screens on most floors. A message is developed and placed on those screens electronically and left as a stagnant item.

School Messenger. Our new phone software allows us to send a recorded and/or text message to those students who have opted into the system with their phones.

IP Messenger. Our new phone system also has the capability of delivering an audio message using every phone on campus. The recorded message plays through the phone's audio system, and can be heard throughout an entire classroom. It also interrupts those people talking on the phone at the time the message is sent out. The same message can be programmed to repeat several times at various hours.

Website News post or Message. The message should remain very visible to anyone visiting the campus website, and it should be updated periodically throughout the emergency or critical period. The website also allows for blog entries so others can ask questions and gather more information.

Messages on Facebook and Twitter. Social media needs to be engaged because many of our students ONLY receive information from these sources. Short messages should be developed and placed without raising alarm. Again keep people updated.

Flyers. The message needs to be placed on a one-sheet, and distributed to every mailbox on campus. This is especially important for the adjuncts. Flyers also need to be distributed from places like the info desk, financial aid and counseling, places where students congregate. In addition, I would encourage the use of ASO members to pass out flyers to students walking on campus and to classrooms.

Signage. Needs to be placed in areas of high traffic and closed entrances or buildings. Other areas to be coordinated with the Sheriff's office and other campus departments...

LATTC will, without delay, and taking into account the safety of the community, determine the content of the notification and initiate the notification system, unless issuing a notification will, in the professional judgment of the responsible authorities, compromise efforts to assist a victim or to contain, respond, or otherwise mitigate the emergency.

The entire campus community will be notified when there is a potential that a very large segment of LATTC is threatened. President's Office, the campus Sheriff's Office, district personnel and Public Relations will reassess the situation to determine whether additional notifications or updates need to be made.

Testing of Procedures

LATTC conducts both announced and unannounced tests of its emergency response and evacuation procedures. The Environmental Health and Safety Office and the campus Sheriff's Office will monitor all announced tests of its emergency response and evacuation procedures.

LATTC publicizes its emergency response and evacuation procedures by: 1. The posting of emergency procedures in each classroom. 2. The posting of emergency response and evacuation procedures on the LATTC website. 3. Providing emergency information in our School Catalog. 4. Providing other emergency notifications and procedures through Email blast or through School Messenger.

LATTC will document each test by recording a description of the test, the date the test was held, the time the test started and ended, and whether the test was announced or unannounced. Copies of test documentation are available from Physical Plant Office.
