Senior Care Technician Certificate

Course Descriptions:

The first 4 courses are pre-requisite for completion of HLTHOCC 049 course.

- **HLTHOCC 062** (2 units) – This course is an introduction of the concepts and skills that serve as a foundation for the health care profession. Topics include hygiene and safety, infection control, basic client monitoring and basic first aid, therapeutic communication and basic health documentation.

- **HLTHOCC 063** (2 units) – This basic medical language course will discuss common diseases and injuries and their pharmacological treatment using medical terminology in English and Spanish, when appropriate.

- **HLTHOCC 064** (1 unit) – This course provides an overview of the concepts of health and illness, cultural diversity and legal issues that affect the health care professional.

- **HLTHOCC 065** (2.5 units) – This course explores career options in the health care industry, healthy behavior for health care workers, work ethics, professional resumes and interviewing skills and personality traits of a health care professional. There will be an externship during which area employers will introduce students to direct and indirect patient care opportunities.

Required Courses:

- **HLTHOCC 049** (5 units) – This course will introduce students to the information about the aging process and related medical, psychological and cognitive changes that is needed to effectively care for the elderly person in a long-term care center or at home.

- **Health 046** (1 unit) – Basic Life Support CPR/AED for the Professional Rescuer certification from the American Heart Association.

- **Psychology 001** (3 units) – General Psychology course transferrable to both UC and CSU.

Total requirements for the Senior Care Certificate is 16.5 units and is eligible for financial aid.
