

## Maintenance Mechanic

### Duties and Objectives

Completes building, re-building, repair, overhaul, installation and/or removal of new or used, precision or semi-precision machinery and equipment. Machining and fitting to close tolerances with speed and accuracy. Cooperates with machine operators and skilled tradesmen in job duties.

Since 1927, Davis Wire Corporation has built a reputation for dependability and quality. As the largest wire manufacturer in the western United States, our impressive range of products are used in a wide variety of fields, including agriculture, construction, transportation, communications and industrial applications. The foundation of our business is our galvanized, brite and reinforcing wire, though we also produce an assortment of specialty wires to fit almost any need.

We currently seek a dedicated Maintenance Mechanic to join our team in Irwindale, California.

## Maintenance Mechanic

### Duties and Objectives

Completes building, re-building, repair, overhaul, installation and/or removal of new or used, precision or semi-precision machinery and equipment. Machining and fitting to close tolerances with speed and accuracy. Cooperates with machine operators and skilled tradesmen in job duties.
